

ImportHandlerProvider

[ExportHandleProvider](#)

ImportHandlerProvider

```
package com.finebi.common.excel.api.handler;

import com.fr.stable.fun.mark.Mutable;

import java.io.InputStream;

/**
 *
 */
public interface ImportHandlerProvider extends Mutable {

    String XML_TAG = "ImportHandlerProvider";

    int CURRENT_LEVEL = 1;

    /**
     *
     * @param inputStream
     * @param context
     * @return
     */
    InputStream handleStream(InputStream inputStream, ImportContext context);

}
```

```
<extra-core>
  <ImportHandlerProvider class=""/>
</extra-core>
```

AbstractImportHandlerProvider

```
package com.finebi.provider.api.imports;

import com.finebi.common.excel.api.handler.ImportContext;
import com.finebi.common.excel.api.handler.ImportHandlerProvider;
import com.fr.stable.fun.mark.API;

import java.io.InputStream;

/**
 *
 * Created by Hiram on 2018/11/15.
 */
@API(level = ImportHandlerProvider.CURRENT_LEVEL)
public abstract class AbstractImportHandlerProvider implements ImportHandlerProvider {

    @Override
    public int currentAPILevel() {
        return CURRENT_LEVEL;
    }

    @Override
    public String mark4Provider() {
        return getClass().getName();
    }

    @Override
    public InputStream handleStream(InputStream inputStream, ImportContext context) {
        return inputStream;
    }
}
```
