

PublicLinkExportProvider

PublicLinkExportProvider

```
@Careful
public interface PublicLinkExportProvider extends Immutable {

    String XML_TAG = "PublicLinkExportProvider";

    int CURRENT_LEVEL = 1;

    /**
     *
     * @param reportId Id
     * @return
     */
    boolean isExportable(String reportId);
}
```

```
<extra-core>
    <PublicLinkExportProvider class="com.finebi.plugin.link.export.DefaultPublicLinkExportProvider"/>
</extra-core>
```

AbstractPublicLinkExportProvider

```
@API(level = ServerTablesProvider.CURRENT_LEVEL)
public abstract class AbstractPublicLinkExportProvider implements PublicLinkExportProvider {

    public int currentAPILevel() {
        return CURRENT_LEVEL;
    }

    @Override
    public int layerIndex() {
        return 0;
    }
}
```
