

# ServerTablesProvider

## ServerTablesProvider

```
@Careful
public interface ServerTablesProvider extends Immutable {

    String XML_TAG = "ServerTableListProvider";

    int CURRENT_LEVEL = 1;

    /**
     *
     *
     * @param userId ID
     * @return
     */
    List<String> getServerTableNames(String userId);
}
```

```
<extra-core>
  <ServerTableListProvider class="com.fr.plugin.demo.server.CustomServerTablesProvider"/>
</extra-core>
```

## AbstractServerTablesProvider

```
@API(level = ServerTablesProvider.CURRENT_LEVEL)
public abstract class AbstractServerTablesProvider implements ServerTablesProvider {

    public int currentAPILevel() {
        return CURRENT_LEVEL;
    }

    @Override
    public int layerIndex() {
        return 0;
    }
}
```
