

BackgroundUIProvider

```
package com.fr.design.fun;

import com.fr.design.style.background.BackgroundDetailPane;
import com.fr.general.Background;
import com.fr.stable.fun.mark.Mutable;

/**
 * Created by richie on 16/5/18.
 */
public interface BackgroundUIProvider extends Mutable {

    String MARK_STRING = "BackgroundUIProvider";

    int CURRENT_LEVEL = 1;

    /**
     *
     * @return
     */
    Class<? extends Background> targetClass();

    /**
     *
     * @return
     */
    Class<? extends BackgroundDetailPane> targetUIClass();

    /**
     *
     * @return
     */
    String targetTitle();
}
```

```
<extra-designer>
  <BackgroundUIProvider class="com.fr.plugin.xxx.youclassname"/>
</extra-designer>
```
