,ldap,http,,

dec.provider.user

```
BI.config("dec.provider.user", function (provider) {
  provider.inject({
    authenticationMethod: {
      wechat: {
        value: "wechat",
        text: "",
        "@class": "com.fr.decision.webservice.bean.authentication.WechatAuthenticBean",
        component: {
          type: "dec.user.setting.wechat"
        }
      }
    }
  });
});
```
