## Service.java

```
package com.fr.stable.fun;

import javax.servlet.http.HttpServletRequest;
import javax.servlet.http.HttpServletResponse;

/**
 * FineReportHTTP
 */
public interface Service {

    String XML_TAG = "WebService";

    /**
     * OP
     *
     * @return op
     */
    String actionOP();

    /**
     * HTTP
     *
     * @param req      HTTP
     * @param res      HTTP
     * @param op       op
     * @param sessionID ID
     * @throws Exception
     */
    void process(HttpServletRequest req, HttpServletResponse res, String op, String sessionID) throws
Exception;
}
```

## NoSessionIDService.java

```
package com.fr.stable.fun.impl;

import com.fr.stable.fun.Service;

import javax.servlet.http.HttpServletRequest;
import javax.servlet.http.HttpServletResponse;

public abstract class NoSessionIDService implements Service{
    public void process(HttpServletRequest req, HttpServletResponse res, String op, String sessionID)
    throws Exception {
        process(req, res, op);
    }

    public abstract void process(HttpServletRequest req, HttpServletResponse res, String op) throws
    Exception;
}
